(over)

## General Terms and Conditions

This program offers on energy audit to be done on the above noted property. To qualify for the program, an application must meet the following eligibility requirements:

- Applicant must be a Perham Natural Gas (PNG) customer where the audit is being performed.
- Application must be completed and signed before audit is performed.
- Franklin Energy will schedule the audit
- Owners of building qualify for program. Renters must have owners complete and sign application.
- Completed audit will be returned to PNG. Applicant will receive copy of completed audit.

## Disclaimer

The City of Perham does not guarantee that the implementation of energy-efficient measures or use of the equipment purchased or installed pursuant to this program will result in energy or cost savings. The City of Perham makes no warranties, express or implied, with respect to any equipment purchases or installed including, but not limited to, and warranty or merchantability, or any incidental or consequential damages.

This program is subject to regulatory rules and orders. The City of Perham reserves the right to change any portion of this program or to end this program without notice.

## Applicant Agreement

I certify that I have read and agreed to the Terms and Conditions of the Perham Natural Gas Energy Audit program.

Applicants Signature \_\_\_\_\_ Date \_\_\_\_\_

## Easy Energy Saving Tips

- ⇒ Furnace Filters should be replaced monthly.
- ⇒ Set your water heater at 120°–125°.
- ⇒ Install a low flow showerhead to save water and energy.
- ⇒ In the summer use shades and drapes to block out direct sunlight during the day.
- ⇒ Use fans rather than your air conditioner to circulate air.
- ⇒ In the winter lower your thermostat in the evening while you sleep.
- ⇒ In the winter let the sun in during the day and close your drapes/shades in the evening.

## Incentive Rebates

Perham Natural Gas has implemented a custom rebate and assistance program. The program consists of a no-cost energy assessment, a personal energy advisor contact person, and potential rebates for qualified gas saving projects. Custom projects are reviewed on a case-by-case basis and must be pre-approved prior to the purchase of any equipment.

### Commercial/Industrial Custom Rebates Criteria -

- ◇ \$0.50/therm saved during the first year
- ◇ Up to 50% of project cost
- ◇ \$3,000 max rebate amount per customer per year

### Residential Rebates -

- ◇ Furnace/Boilers
- ◇ Water Heaters
- ◇ Insulation

### The "NATURAL" Choice

- Clean
- Comfortable
- Conventional
- Reliable
- Economical

Residential customers of the City of Perham are eligible for FREE installation of energy-saving devices in their homes, as well as rebates on high-efficiency furnaces, water heaters and attic insulation.

## Home Energy Jumpstart Program

FREE energy-saving products for your home .

The *Home Energy Jumpstart Program* is offered in partnership by the City of Perham and Franklin Energy. Homeowners can reduce their energy and water use with FREE installation of these products. Call us today to see if you qualify.

### Programmable Thermostats

Raise and lower temperature automatically, limiting the amount of energy used when you aren't home or are asleep.

### Pipe Insulation

Keeps water in your hot water pipes warm longer, helping you lower water consumption and reduce the energy used by your hot water heater.

### Showerheads

Use less water than traditional showerheads, which means you'll use less energy heating water for showers. Could save up to \$20/yr.

### Water Heater Blankets

Check your older hot water tank to see if it has insulation with an R-value of at least 24. If not, consider insulating your water tank. This can reduce standby heat losses by 25-45% and save you about 4-9% in water heating costs or up to \$40/yr.

### Faucet Aerators

Use up to 30 percent less water than standard faucet aerators, helping you save water and the energy used to heat it. Could save up to \$20/yr.

Participants in the *Home Energy Jumpstart Program* also can receive a **\$150 bonus rebate** on qualifying furnaces, boilers and a **\$100 bonus rebate** on water heaters through the *Home Energy Rebate Program*.

Call 218-346-4455 or 877-864-7963 Toll Free today to request an application for your FREE home energy audit!

Commercial and Multi-Family dwelling customers of the City of Perham are eligible for FREE installation of energy-saving devices, as well as rebates on high-efficiency furnaces, boilers, water heaters and attic insulation.

## Energy Jumpstart Program

FREE energy-saving products for your business or multi-family dwelling..

The *Energy Jumpstart Program* is offered in partnership by the City of Perham and Franklin Energy. Business and rental property owners can reduce their energy and water use with FREE installation of these products. Call **us today** to see if you qualify.

### Programmable Thermostats

Raise and lower temperature automatically, limiting the amount of energy used when you aren't home or are asleep.

### Pipe Insulation

Keeps water in your hot water pipes warm longer, helping you lower water consumption and reduce the energy used by your hot water heater.

### Pre-Rinse Spray Valves

High-efficiency spray valves provide great pressure and quality performance with 60% less water. Pre-rinsing can account for 1/2 the water costs in a kitchen. Annual savings of up to \$410 and 31,000 gallons can be achieved, based on 1 use hour per day.

### CO 2 Sensor

High Occupancy spaces can have very high ventilation requirements, which results in wasted heating or cooling energy when the space isn't fully occupied. Demand Controlled Ventilation (DCV) can be used to estimate the number of occupants in a space and reset the ventilation rate from the design occupancy down to the actual occupancy.

### Faucet Aerators

Use up to 30 percent less water than standard faucet aerators, helping you save water and the energy used to heat it. Could save up to \$20/yr.

Participants in the *Energy Jumpstart Program* also can receive up to a **\$500 bonus rebate** on qualifying gas furnaces, a **\$350 bonus rebate** on qualifying boilers, and a **\$200 bonus rebate** on water heaters through the *Commercial Energy Rebate Program*.
