PROJECT PROFILE		
Project Description: Attach to back if needed.		
Estimated Project Cost:	Estimated Natural Gas Savings (MCF's):	
Legal: <ol style="list-style-type: none"> 1. I understand that this program has a limited budget, but is an annual program. Applications will continue to be processed until allocated funds are fully depleted. The filing of an application does not guarantee an incentive will be provided. Funds are on a first come first serve basis. 2. Applicant agrees to pre & post inspection and any required measurement activities related to the project by the utility and/or its representatives. 3. All materials removed must be taken out of service permanently and disposed of properly according to federal, state, and local law. 4. The incentive amount will be determined based upon the estimated energy savings and fund availability. The applicant and/or contractor may be required to provide documentation on energy savings calculations and assumptions. The Utility will make the final determination of the energy savings, and therefore the final incentive amount. 5. The Utility has the right to revise incentive amounts and enforce incentive caps in accordance with its conservation improvement plan.
